INFORMATION SECURITY POLICY

- We consider Information security to be crucial for building trust.
- Information is protected from unauthorized access and its integrity is preserved.
- Information is collected, processed and stored in a legal and transparent manner.
- The information is used only for a specific and defined purpose.
- Information is not stored longer than specified and necessary and is destroyed in a controlled manner after the need ceases.
- We continuously meet contractual and legal requirements in order to maintain the confidentiality of personal information and other critical information of our clients or third parties.
- We are committed to continuously improving our information security management system.

We are aware of the importance of respecting our Policy and pass it on to employees at all levels.

We apply the requirements of the international standard ISO 27001, in a way that we set clear goals and continuously maintain the confidentiality, integrity and availability of information related to stakeholders.
